1. MLP GROUP AT A GLANCE

1. MLP GROUP AT A GLANCE

Generic NAV development of logistic assets without acquisitions

DEVELOPED SPACE, UNDER CONSTRUCTION & IN PREPARATION STAGE (SQM)

- MLP determines the quality and the location of the product
- MLP plans the infrastructure of the logistics park in the long term - which helps/facilitates subsequent scaling/expansion of the logistic park
- MLP has standardized documentation of constructed facilities
- **MLP develops standardized warehouses => making suitable for subsequent re-letting**
- Own/generic development of logistics parks makes it easier to build long-term relationships with tenants
- All additional investments (TI – tenants’ improvements) made by MLPG for a specific tenant, are paid back by tenants during the initial lease period
- Long term impact on the local community, projects align with local society expectations (local bike station, eco-friendly and energy efficient buildings)
- MLP affects the choice of each tenant (strong financial results- D&B verification, type of business)
- **100% of lease contracts indexed as of February with inflation**

MLP GROUP IS ACTIVE IN 4 EUROPEAN COUNTRIES

installed PV

- Geographically, development in the German and Polish markets will remain a priority
- By 2026, MLP wants to equal the value of the properties they own in Poland and Germany
- The above will be supplemented by operations in Romania and Austria
- Additionally, MLP wants to maintain its ongoing expansion on new attractive locations such as Netherlands (Amsterdam)

MLP Group is active in 4 European countries and focuses on acquiring development sites that are adjacent to existing parks, or in sought-after locations with proximity to strong logistics hubs and transport corridors and large, densely populated cities

2. 1H 2024 EXECUTIVE SUMMARY

2. 1H 2024 EXECUTIVE SUMMARY

Key trends in the European industrial market

- 1 Stabilizing yields and valuations:** Yields have peaked, and valuations bottomed out, with a trend reversal expected as yields align with interest rates. The CEE and Western Europe yield gap has returned to the long-term average.
- 2 Demand for warehouse space is bouncing back across Europe (especially since 2Q 2024),** market re-balancing and signs of stabilization and growth have been observed since Q2 2024, driven by growth in light industry and nearshoring, compensating 20% drop in e-commerce => big e-commerce retailers stopped the expansion.
- 3 Nearshoring and manufacturing boost:** Strong demand from manufacturing, especially in Poland, Germany, and Austria, along with growth from Asian companies in sectors like automotive and electromobility.
- 4 Longer lease timelines with higher quality tenants:** Signing new lease contracts take 3-4 months longer, with tenants from light industry sectors investing in 10+ year contracts, leading to higher rental rates and portfolio stability.
- 5 Limited supply of new projects:** New construction space in Europe is down by 20-25% due to financing issues, driving up rental rates.
- 6 Lower construction costs:** Construction prices have nearly returned to pre-COVID levels, improving project profitability due to competitive contractor pricing.

2. 1H 2024 EXECUTIVE SUMMARY

Strategic adaptation and market outlook for 2024

- 1 Improved market outlook:** The most challenging period seems to be behind us, with reduced uncertainty regarding yields, inflation, and investment decisions. However, geopolitical risks and economic concerns remain potential challenges.
- 2 Strategic market positioning:** MLP Group's well-placed logistics parks in core urban areas across Europe allow for flexibility, client-tailored solutions, and profitability in the evolving logistics real estate sector.
- 3 Focus on flexible units:** MLP is prioritizing smaller, flexible units like City Logistic (SBU) and Medium Size Units (MSU) under the „MLP Business Park“ brand, which cater to modern tenants' needs and offer higher rental rates compared to traditional warehouses.
- 4 High tenant diversification:** MLP's multi-tenant parks support a broad range of space requirements, from 500 m² to 20,000 m², ensuring diverse tenant demand and stable income.
- 5 Strong performance in 1H 2024:** Despite market challenges, MLP Group delivered excellent operational and financial results, driven by strong leasing activity across Europe.

3. 1H 2024 LEASING RESULTS

3. 1H 2024 LEASING RESULTS

Market Outlook: Poland & Germany

POLAND

Poland remains one of the fastest-growing industrial and logistics property markets in Europe.

The total supply of modern industrial and logistics space exceeded **32.8 million sqm**, marking a **9%** increase compared to mid-2023.

Currently, over **1.97 million sqm** of new industrial and logistics space is under construction, which is 7% less than after the second quarter of 2023.

Over the first half of this year, total demand reached **2.7 million sqm**, up **24%** year on year.

Following a period of rapid growth in 2022, base rents in the industrial and logistics sector have now stabilised. For modern warehouse space in Poland's key regions, tenants can expect base rents between **EUR 3.9 and EUR 5.4** per sqm/month.

GERMANY

Germany's industrial and logistics real estate market has stabilized at a moderate level with take-up of a good one million sqm per quarter.

In the first half of 2024, demand in the German industrial and logistics property market reached **2.3 million sqm**, an 8.1% reduction compared with the same period in 2023.

New builds account for **60%** of the take-up volume.

Big box vacancy rate increases to **3.2%**.

Prime rent as an average of the Top 5 markets climbs by **6.3%** to **EUR 8.71**

Source: CBRE

3. 1H 2024 LEASING RESULTS

Market Outlook: Austria & Romania

AUSTRIA

Around **111,000 sqm** of new logistics space was completed in Austria during the first half of the year, with roughly three-quarters of that located in the Vienna area.

It is expected that 2024 will set a new record for the volume of newly completed logistics space.

The vacancy rate in the logistics property market in the broader Vienna region stood at approximately **2%**.

Due to an upgrade of technical standards of the properties, base rents saw a slight increase, rising to **EUR 7.00** per sqm/month.

ROMANIA

Romania's modern logistics property market had expanded to **7.47 million sqm**.

Bucharest continues to dominate as the country's warehouse facilities centre, with a **48% share** of total leasable space offered.

Romania's anticipated full integration into the Schengen zone is expected to further boost its attractiveness to logistics operators.

The vacancy rate for Romania's modern industrial and logistics properties was **5.6%** at the close of the first half of 2024, a 0.6pp increase from the same time last year.

Asking rents have held steady at **EUR 4.50** per sqm/month, the same as at the end of 2023, but EUR 0.25 higher than in the first half of 2023.

* Including exchange rate differences, amortization with deferred tax consideration.

- **EPRA NRV:** The EPRA Net Reinstatement Value is a measure of net asset value aimed at reflecting the cost required to rebuild an entity, assuming the entity does not sell its assets.
- **EPRA NTA:** EPRA Net Tangible Assets is a measure of net asset value, assuming entities buy and sell assets, thereby crystallising certain levels of provisions related to deferred income tax. It is calculated as the total equity minus non-controlling interests, excluding derivatives valued at fair value, as well as deferred taxation on properties (unless such an item is related to assets held for sale).
- **EPRA NDV:** EPRA Net Disposal Value is a measure of net asset value under the assumption that the entity will sell its assets
- **EPRA Earnings** is used to measure the operational performance, it excludes all components not relevant to the underlying net income performance of the portfolio, such as the change in value of the underlying investments and any gains or losses from the sales of properties. In effect, what is left as EPRA Earnings is the income return generated by the investment, rather than the change in value or capital return on investments.
- **EPRA Cost Ratio** – general and administrative costs/ rental income
- **EPRA Vacancy Rate** is calculated as a percentage being the estimated rental value of vacant space divided by estimates rental value of whole portfolio.

4. FINANCIAL ACTIVITY

Key points in 1H 2024 - Financial position

AS AT 30.06.2024

➤ LTV ¹⁾	37.5%
➤ ICR	2.0x
➤ NAV in EUR mn	621
➤ Financial debts in EUR mn (all-in) among which:	491
– Bank loans (secured on MLP's assets) in EUR mn ²⁾	376
– Bonds (unsecured on MLP's assets) in EUR mn	115
➤ Weighted Average Interest Rate on financial liabilities (all-in)	4.8%
➤ Weighted Average Unexpired Financial Debt Term (in years)	4.0

1) LTV % = (financial debt - cash & equivalents)/investment property

2) Bank loan principal offset with hedge transactions

FFO (IN EUR MN)

The decrease in FFO in the 1H 2024 was driven mainly by higher financial debt service costs totalling EUR 4.5 mn. This was due to increase:

- interest bearing debt by EUR 22 mn (bank loan EUR 8 mn and bonds EUR 14 mn),
- increase of EURIBOR Rate (EURIBOR 6M by 14%, EURIBOR 3M by 30%),
- new IRS transaction at higher rates in line with the current market conditions (higher interest rate).

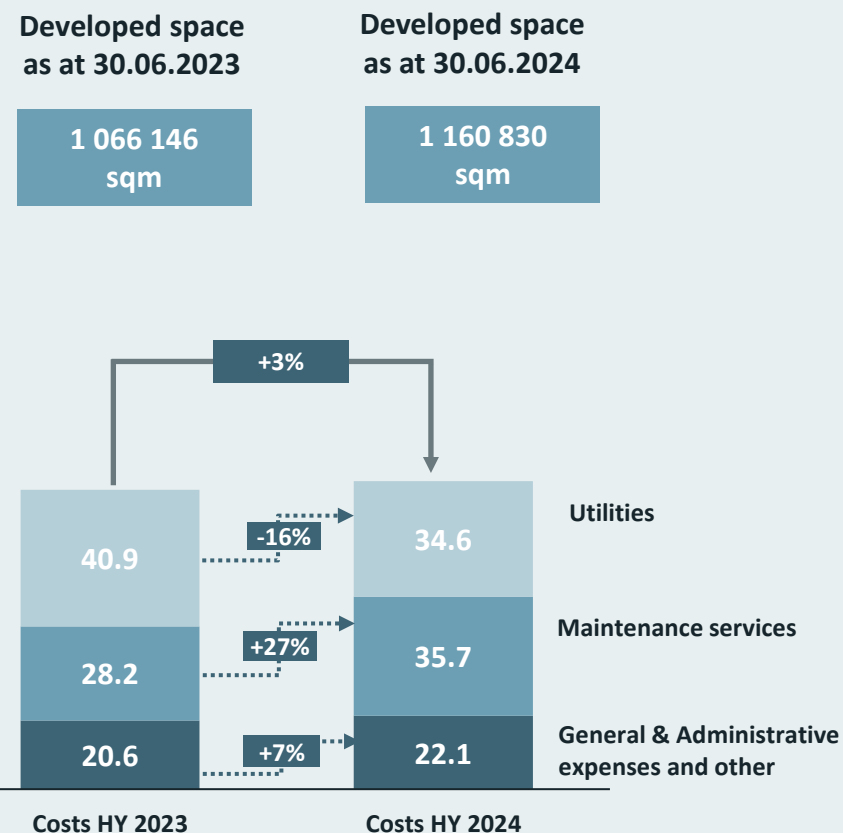

4. FINANCIAL ACTIVITY

Key points in 1H 2024 - Financial position

REVENUES (IN PLN MN)

COSTS (IN PLN MN)

Recharge & utilities: The decrease in revenue by 19% and decline in cost by 16% were driven by the reduction in gas and energy prices. The gas price in 1H2023 was contracted before the outbreak of the war in Ukraine at a very attractive price, and after the price increase, MLP was able to achieve an extraordinary margin on gas sales in 1H2023. Such situation did not exist in 1H2024 when the gas price stabilized.

Loans and bonds

EXISTING BANK LOANS BY MATURITY IN EUR MN

BONDS BY MATURITY IN EUR MN

- MLPG is a reliable financing partner, with a solid financial position.
- Undrawn credit line for EUR 86.1 mn and new bank facilities being finalized for the amount of EUR 44.2 mn (the binding TSs have been countersigned by the parties).
- 80% of Bank loans are hedged against interest rate risk for next 4 years.
- On 27 of February 2024 MLP Group redeemed bonds of series E in amount of EUR 4 mn and partially series D in the amount of EUR 8.6 mn before their maturity. The remaining part of series D amounting to EUR 11.4 mn is due on 17th of May 2024.
- On 6 March 2024. MLP Group issued a new series of bonds for a total amount of EUR 41 mn (series G), in accordance with a resolution of the MLP Group board of directors.
- On 17 of May 2024 MLP Group redeemed bonds of series D in amount of EUR 11.4 mn
- 60% of Bank loans and bonds are hedged by interest rate risk.

4. FINANCIAL ACTIVITY

RENTAL INCOME IN PLN MN

- The decrease in passing rents on the existing space was mainly influenced by:
- the appreciation of PLN against EUR (-6.6%),
 - the gap in rental income due to adaptation works for new tenants,
 - additional improvement rent expired in 1H2024 which was included in rental in the 2H2023

LIKE-FOR-LIKE RENTAL GROWTH MAIN DRIVERS

After elimination of exchange differences, like-for-like growth would be +5.5%, and consisting of:

- +0,1% renegotiation or new contract,
- +5,5 % indexation.

100% MLP's lease contracts are indexed without any caps.
Rental income are in EUR or EUR denominated

6. ESG STRATEGY

6. ESG STRATEGY

For MLP GROUP S.A.

All Business Partners of MLP Group are bound by the Code of Good Cooperation, which outlines our ethical standards and principles of cooperation with Tenants and all other Business Partners. The preparation of this document stems from our ESG strategy and our commitment to maintaining the highest ethical and social standards in all aspects of our operations. The document is available at our website.

This document contains key principles regarding:

- **Ethics and Compliance:** We commit to conducting business in an honest, transparent manner, compliant with applicable laws.
- **Respect for Human Rights:** We expect all Partners to respect human rights and uphold the dignity of their employees.
- **Sustainable Development:** We promote actions for environmental protection and sustainable development.
- **Occupational Health and Safety:** We prioritize providing safe and healthy working conditions.
- **Anti-Corruption Policy:** We require zero tolerance towards all forms of corruption and bribery.

To manage risks related to relationships with the local community, MLP informs community members about the progress of construction projects. MLP establishes a complaint-handling process to manage and resolve complaints received from stakeholders, community members, or local residents.

Regarding risks associated with business ethics, MLP has established a code of ethics applicable to all employees and co-workers of the Group and its subsidiaries. They are required to adhere to the Group's values, which include issues of integrity, human rights, privacy, bribery, and corruption. To protect whistleblowers, MLP has established a whistleblower policy and procedure for managing incident reports. MLP has also established a policy for the prevention and handling of fraud and embezzlement to manage and mitigate risks such as corruption, fraud, and conflict of interest.

MLP GROUP S.A. became the Strategic Partners of Responsible Business Forum (Forum Odpowiedzialnego Biznesu) The FOB Partnership Program is an initiative that brings together industry leaders who, through collaboration with a group of experts, enhance their competencies in ESG and undertake joint actions to support the sustainable transformation of business.

6. ESG STRATEGY

MLP GROUP S.A. => ESG driven by economics

E – Environmental goal

Reducing the company's negative impact on the environment

Tasks to achieve this goal:

- renewable energy from PV + energy efficiency
- reducing water consumption
- waste management
- biodiversity

S - Social goal

Drive a comprehensive effort to improve the quality of the environment and ensure environmental safety of the local communities

Tasks to achieve this goal:

- improve the safety and health of employees and customers
- ensure a safe workplace for employees
- create a friendly external environment
- provide charitable support

6. ESG STRATEGY For MLP GROUP S.A.

G - Governance goal

Integrating ESG into business operations and aligning corporate and societal interests

Tasks to achieve this goal:

- assessing the impact of investments on human rights
- climate change as an important aspect considered in decision-making
- establish procedures and set reasonable targets to ensure that environmental, climate and human rights risks are identified and avoided
- conduct business in accordance with ethical standards Communicate ESG policies and activities

We focus primarily on measures geared towards reducing our adverse environmental impacts. We concentrate on our goal to achieve climate neutrality by 2026.

Thank you!
